Update on Status of University Library 2007-2008 Goals

The Faculty of the University Libraries conducted their September review of progress on the 2007-2008 goals and objectives that were approved for this academic year.

The approved goals and objectives were determined after studying annual program review documents, reviewing five-year program review documents, reviewing final status of

2006-2007 goals and objectives and gathering input from students and the University Library and Archives Policies Advisory Committee (a Faculty Senate committee).

For further information or to give input or discuss the goals and objectives contact Mr. Ed Walton, acting dean of University Libraries.

To see the University Libraries goals and objectives for current year and to check the current progress on those efforts, go to:
