

Mission / Vision Statement

University Libraries

Mission Statement

The University Library provides access to, and instruction in, the use of information resources and services that support the academic programs and the academic programs and the university community.

Vision Statement

The University Library actively facilitates and shares in the university's educational program, both on-campus and off-campus by:

- 1) Providing facilities with sufficient space for study and use of information resources in an atmosphere which is conducive to study and research.
- 2) Providing professionally trained librarians and qualified support staff in sufficient numbers to assist the university community with their information needs.
- 3) Providing an organized and readily accessible collection of information resources and access to external resources.
- 4) Providing instruction, in partnership with classroom faculty, in the use of information resources and services which develop skills for lifelong learning and participation and leadership in a global society.
- 5) Researching trends and developing plans that will address the future information needs of the university community.
