Art Curriculum – General Aspects
The art student can pursue one of three degrees or a specified art minor offered by the area. The 46-hour Art Core is nearly identical for each art degree and will allow ease in moving from one degree to another within the area. The Art Core is designed to give students significant exposure to a wide variety of art mediums, and a solid visual arts foundation.

The Area of Art offers two course formats, lecture courses and studio courses. A course designed around the art studio and the production of art requires significant time and serious commitment by the individual student. Due to the nature of art coursework, the student will be expected to log additional unsupervised time in the studios. As a general rule, art programs throughout the U.S. expect every credit hour of studio coursework to represent three hours of work done in the art studio.

Art Lecture Courses: For a three-credit-hour lecture art course at SBU, the student meets in the classroom with the instructor for three hours per week and is expected to spend an additional six hours per week on assigned projects. It is imperative that each student plans this additional time into his or her schedule. The following ART courses are classified as lecture format:

- ART 1013 Introduction to Art
- ART 1103 Design
- ART 2703 Introduction to Graphic Design
- ART 2803 Art History I
- ART 2813 Art History II
- ART 3043 Graphic Design Production
- ART 3703 Graphic Design Concepts
- ART 3713 Graphic Design Portfolio I
- ART 3723 Digital Imaging Concepts
- ART 4003 Computer Application / Commercial Art
- ART 4703 Graphic Design Senior Project
- ART 4713 Graphic Design Portfolio II

Art Studio Courses: For a three-credit-hour studio art course at SBU, the students are scheduled to work in the classroom or at other select locations on or off campus for as many as six hours per week and are expected to spend three additional hours working on their own in the studio for combined minimum of nine (9) hours of studio time per week. It is imperative that each student plans this additional independent time into his or her weekly schedule. It is not recommended for a student to enroll in more than two studio art courses in a single semester. The following ART courses are classified as studio format:

- ART 1203 Drawing I
- ART 2003 Photography I
- ART 2013 Ceramics I
- ART 2013 Sculpture I
- ART 2033 Painting I
- ART 2203 Drawing II
- ART 3003 Life Drawing

- ART 3023 Sculpture II
- ART 3033 Painting II
- ART 3103 Printmaking I
- ART 3203 Advanced Drawing Studio I
- ART 3213 Advanced Drawing Studio II
- ART 3323 Photography II
- ART 3403 Advanced Ceramics Studio I
- ART 3413 Advanced Ceramics Studio II
- ART 3503 Advanced Sculpture Studio I
- ART 3513 Advanced Sculpture Studio II
All art majors are required to keep a portfolio of their best artwork for presentation in comprehensive solo exhibition. Artwork must be approved by the area during the student’s senior year. The Area of Art reserves the right to retain examples of work from all studio courses for the permanent collection of Southwest Baptist University, and to use reproductions of student artwork for purposes of publication and advertising, etc.

Living during the most visual culture in world history, today’s studio and commercial artists have a tremendous responsibility. Serious study of the visual arts provides a basis and avenue for effective corporate and personal expression. Visual art is a contextual language, both a by-product and a catalyst of culture. Well-trained, highly skilled artists have a unique opportunity to effectively engage the visual language in order to care for culture, promote healing in society, and to reflect the creative nature of the Triune God of the Bible.

General Art Major – B.S. Degree

The Bachelor of Science degree for the General Art Major is designed to give the serious art student a solid, broad based foundation in the visual arts and can be earned with the completion of the specified 46-hour Art Core. This major affords the student optimum flexibility and can be supplemented with an additional major or minor from another area. This degree is designed for the individual who senses a call to the vocation and ministry of the studio artist.

This degree is also intended for the student planning to pursue a graduate degree in the studio arts, such as the Master of Fine Arts (M.F.A.). The M.F.A. is the terminal degree in studio art generally required to teach studio arts at the college level. Students hoping to pursue M.F.A. studies are strongly encouraged to add at least one optional 18-hour specified Studio Concentration to the 46-hour Art Core.

Area of Music
Accredited Member of the National Association of Schools of Music
Faculty: Robert Carney, Brian Hopwood, Sarah Howes, Melinda Smashey Jones, James Tarrant, Jeffery Waters, Renee Waters, Terri Wehmeyer
Faculty Associates: Marc Baker, Tim Burgher, Michelle Draper, Hannah Fong, Crystal Grosvenor, Carol Harrison, Eric Jackson, Andy Johnston, Allen Lewis, Melissa Roberts, John Trew, Tim Wootten

General Requirements
In addition to admission to the University, an applicant for a music degree program must be admitted to the Area of Music by the recommendations of the music faculty. All new students (freshmen and transfer students) pursuing a music degree are first admitted to the area as pre-music, pre-music education, or pre-church music majors. Upon a successful evaluation by the music faculty, normally at the conclusion of the
In all divisional policies and procedures, the term “music major” is intended to include these pre-majors. Students must have completed, or be concurrently enrolled in MUS 2613 Theory III and MUS 2611 Sightsinging and Eartraining III in order to enroll in any upper-level music course except ensembles and applied music. Music courses taken prior to this formal admission are applicable to the completion of the music degree. All references to music majors in this catalog are applicable to pre-music, pre-music education, and pre-church music majors as well.

As an exit examination, music majors are required to take the Major Field Test in music at the scheduled time during their last two semesters of study.

**Applied Music Placement Tests**
All entering freshmen and transfer students must take a classification test in piano and in their primary applied area. The student is expected to present prepared music on his/her primary instrument or voice.

**Theory Placement Tests**
All entering pre-music, pre-music education, and pre-church music majors who are not transferring theory or sightsinging/eartraining course credits must take a music fundamentals examination in order to determine placement into the music theory sequence and/or to satisfy MUS 1601 Music Fundamentals Lab as a co-requisite course for MUS 1613 Theory I. All theory and sightsinging/eartraining courses taken at another school and transferred in for degree requirements must be tested at SBU for proficiency and/or placement. If all freshman and sophomore theory and sightsinging/eartraining courses have been completed at another school, a placement test is still required to determine readiness to continue in upper-level theory courses. No more than one theory course may be taken by OLIS, and only if taken as a repeated course.

**Applied Music**
The Area of Music offers three types of lessons: private applied music, secondary class and basic class. Private applied music is for all music majors and minors as well as intermediate to advanced non-majors. Secondary class is the required second applied area of performance, and is automatically piano if the primary applied area is not piano. Basic class is for non-music majors or minors with less than three years of previous study. Specific requirements in applied music are listed in the Music Handbook. Applied music lessons are available in voice, piano, organ and all wind, percussion, and string instruments. Private applied music may be taken for one credit (thirteen 30-minute lessons) or two credits (thirteen 60-minute lessons). Applied music may be taken for zero credit if it is not a degree requirement. Five hours of practice per week is required per credit hour of enrollment. Majors and minors (except general music minors) must perform once per semester in a student recital on their primary applied instrument. In addition to weekly lessons, music majors are required to participate in a minimum of three studio classes each semester.

**Jury Examination**
The final examination for private applied music courses will be conducted before a jury of faculty members which includes the student’s instructor. Students will be responsible for all materials covered during the semester as well as fundamental techniques and knowledge pertinent to their performing medium. The faculty jury will evaluate student performance according to proficiency levels as described in the Music Handbook. The Handbook also describes the expected rate of progression through the various levels required by each degree program. For non-music majors or music majors studying in an area outside of their primary and secondary applied areas, a jury examination is required only for scholarship recipients.

**Secondary Requirement**
The study in the secondary applied area is intended to establish functional skill on a practical level. Whenever possible a class approach is employed which allows the student two hours per week in directed study. Students with strong background in the secondary applied area may request private study. See *Music Handbook* for specific requirements.

**Piano Proficiency Examinations**

All music majors and minors (except general music minors) must pass a piano proficiency examination demonstrating functional piano skill. Scales, vocalises, sightreading, harmonization of given melodies, transposition, and repertoire are included in the exam. Students must continue to enroll in Secondary Class Piano each semester until this requirement is met. The tests are given at the end of each semester and are normally taken at the end of the sophomore year. Any student who passes the Piano Proficiency Examination prior to the completion of four semesters of piano study must continue enrollment in piano or organ until the completion of 4 credits.

Piano proficiency examinations for keyboard majors will be held during juries at the end of each semester. See the *Music Handbook* for specific requirements.

**Recital Requirements**

The following are minimum recital requirements:

- **B.M. and B.S. Degrees**: Half Recital – Level IV
- **Performer’s Certificate**: Half Recital – Level V; Full Recital – Level VI
- **Piano Pedagogy Certificate**: Half Recital – Level V
- **Minor in Piano Pedagogy**: Half Recital – Level IV

Music majors are required to receive a passing grade for MUS 0100 Recital Attendance for 6 semesters. This course is graded on a pass/fail system, and requires the student to attend divisional recitals and concerts and certain community music programs. These programs are listed in the Area of Music calendar and are posted each week on the Casebolt Music Center bulletin boards. Minimum attendance requirements for a passing grade will be posted on the bulletin boards at the beginning of each semester.

**Keyboard as Primary Applied Area**

Each student whose primary applied area is keyboard must be involved in the accompanying program each semester of enrollment with the exception of the student teaching and senior recital semesters. See the *Music Handbook* for specific information.

**Ensemble Requirements**

Each semester of enrollment as a music major, the student will audition for and perform in a major ensemble related to the student’s primary applied area. Students with piano or guitar as the primary applied area will designate a choral or instrumental ensemble as their major ensemble, based on experience and preference, or based upon specific certification requirements for students pursuing the music education degree. The student must perform in the ensemble to which he/she is assigned. Major ensembles: University Singers, SBU Chorale, Wind Symphony, University Band, and Chamber Orchestra.

**Music Handbook**

Details on all Area of Music requirements are found in the *Area of Music Handbook*. Music majors and minors are responsible for all information in this handbook, which may be obtained via link to the area’s team site on the SBU portal.

Physics
The baccalaureate degree in physics requires a minimum of 129 semester hours of credit to be earned by completion of the University general education and graduation requirements, the required physics and physical sciences courses, required support courses, plus general and/or technical electives. An overall grade point average of 2.0 is required in all physics course work. Three options exist: the B.S. in Engineering Physics, the B.S. in Physics, and the B.S in Physics with a Pre-Engineering concentration. The engineering physics major is designed to prepare students to enter the workforce with a high level of technical skills or to enter a graduate program in either physics or many fields of engineering. The physics major is required to be a secondary major and cannot be taken alone. The pre-engineering concentration requires a student to attend an approved engineering school to complete the program. Additional information on the pre-engineering program is outlined below.

Physics Major – B.S. Degree – 3-2 Pre-Engineering Concentration

Southwest Baptist University, in cooperation with the Missouri University of Science and Technology, has a program in which students attend SBU for the first three years before transferring to Missouri S&T to complete a B.S. degree in one of the following engineering programs: aerospace, ceramic, chemical, civil, electrical, geological, mechanical, metallurgical, mining, nuclear or petroleum engineering. This is considered a 3-2 Pre-Engineering program. Upon completion of the Engineering requirements, SBU graduation requirements (must be taken at SBU), the following SBU course requirements, and the SBU general education requirements, students will be eligible to also receive a B.S. in Physics from SBU. While the current agreement with Missouri University of Science and Technology is the preferred

Pre-Health Programs
Although SBU does not offer majors in pre-health programs, students can become well-qualified for acceptance into one of the professional schools of the health sciences.

Plans of study are available for students pursuing entry into schools of dentistry, medicine, osteopathy, optometry, veterinary medicine, pharmacy, physician’s assistant, or medical technology as well as other areas. Pre-professional programs for the health sciences vary in length from one to four years depending on the specific area of interest.

Also, admission requirements are so varied that it is not possible to give detailed plans of study for each area of interest. Students need to be aware of the specific admission requirements of the professional school(s) to which they intend to apply and to select a plan of study accordingly. Students are strongly urged to work closely with their faculty academic advisors and the SBU Pre-Health Careers Committee on the selection of courses, the sequence in which the courses are taken, and on the fulfillment of the admission requirements of the chosen professional program(s).
Students applying to professional schools need to be aware of the deadlines established by the professional schools and testing organizations for submitting application materials and taking admissions examinations. The student is responsible for meeting these deadlines and for any fees associated with the application process or admission testing.

Students interested in pursuing a pre-health program at SBU should identify themselves with the SBU Pre-Health Careers Committee at the earliest possible date. The Pre-Health Careers Committee serves to counsel students and to assist them in obtaining catalogs, literature and other information pertinent to professional school admission requirements and admission testing procedures. Once the requirements for admission to a professional program have been met, the Pre-Health Careers Committee will, at the request of the student, interview the student and write letters of recommendation.

For additional information on pre-medicine, pre-dentistry, pre-optometry, pre-osteopathy, pre-veterinary medicine, pre-pharmacy, pre-physician’s assistant, and medical technology studies contact the Division Head for the Division of Natural Sciences, (417) 328-1659.

Students interested in a career in nursing should contact the College of Health Professions, 4431 South Fremont St., Springfield, MO, 65804, (417) 820-2069.

Students interested in the pre-licensure BSN program on the Bolivar campus should contact the Bolivar Admissions Department.

The Darrell R. Strait Center for the Integration of Science and Christian Faith is an academic center housed within the Division of Natural Sciences and named in memory of our beloved colleague, Dr. Darrell R. Strait. Dr. Strait was a long time employee of the University, senior professor of chemistry and former Dean of the College of Science and Mathematics. The Darrell R. Strait Center is home to an interdisciplinary program (major and minor programs) focusing on the integration of science and Christian faith. In this Center, students study the history and philosophy of science, Biblical hermeneutics and the integration of science and Christian faith. Working from the authority of Scripture and the assertion that Christianity is true, these programs enable students to establish and validate Biblically based personal belief systems on the interrelations between science and Christian faith.

The baccalaureate degree in Integration of Science and Christian Faith requires a minimum of 128 semester hours of credit to be earned by completion of the University general education and graduation requirements, the Integration of Science and Christian Faith curriculum (shown below) and a second major in any other undergraduate degree program offered by SBU. Courses taken toward completion of the major may also be counted toward completion of the general education requirements or a second major in another degree program. A second major in any degree program at SBU is required with this major.

Courts Redford Division of Christian Ministry

Division Head: Matt Kimbrough
Office: Jim Mellers Center; (417) 328-1742
Faculty: Bing Bayer, Don Denton, Michael Fuhrman, Duke Jones, Prosperly Lyngdoh, Kelly Malone

Theology and Ministry majors in the division will choose a concentration in biblical studies, pastoral ministry, children's ministry, discipleship ministry, youth ministry, or intercultural studies. For Church Music (B.M. degree), see the listing under Division of Arts and Humanities in the College of Arts and Sciences

Courses in the division stress the development of ministry skills for pastors, Christian education ministers, youth ministers, children’s ministers, other staff positions and missionaries, as well as for lay
ministry. The division’s purpose is to equip people for building the Kingdom. In addition to the general education, graduation, and core requirements, majors must complete the following requirements.

**Mission Statement**
The Courts Redford Division of Theology and Ministry endeavors from a Christian perspective to teach students the Bible, our Christian heritage, and spiritual formation, and to prepare students for professional church vocations.

**Vision Statement**
The Courts Redford Division of Theology and Ministry accomplishes its mission by:

1. Providing introductory courses for each SBU student in the Bible and spiritual formation.
2. Providing courses that will prepare students for seminary or further graduate study.
3. Providing an introduction to the basic tools of doing the work of a local church.
4. Mentoring church vocation students to clarify their call and to live the Christ-centered life.
5. Giving experience under guidance through its In Service Training Office to those preparing for church vocations.
6. Making students aware of the witnessing imperative of the Christian faith around the globe.

The Courts Redford Division of Theology and Ministry is responsible for the academic programs in religion and for the Institute of Evangelism. The College serves the University by offering courses required for graduation (BIB 1013/1213, BIB 1023/1223, and SPF 2012) and programs of theological training for those who are entering church related vocations and for lay people.

**Majors and Minors**
The Division of Theology and Ministry offers majors and minors through the division of Theology and Ministry. There are also interdisciplinary majors, minors and special programs. A student may take more than one division major only with special permission and special course requirement limits.

Out of a commitment to continuous improvement of the student’s undergraduate experience, the division assesses the learning process in a number of ways. These may include, but are not necessarily limited to, entrance and exit examinations, student portfolios, and exit interviews and surveys requesting information from graduates, graduate schools and employees. Confidentiality is always maintained, and the results of these various instruments are used to make positive and constructive changes to the academic program.

All students are expected to live a consistent Christian life based on biblical principles of conduct.

**Residence Requirement**
A minimum of half the required courses for all majors and minors must be taken at Southwest Baptist University.
