Mission Statement

The mission of the Robert W. Plaster College of Business and Computer Science is to provide educational programs in business, accounting, and computer and information sciences that integrate theories, concepts, and experiential applications with a Christian worldview.

Vision Statement

The Robert W. Plaster College of Business and Computer Science is committed to strong academic programs, the integration of faith in discipline, and a continued pursuit of student success.

Core Values

The Core Values of the Robert W. Plaster College of Business and Computer Science are:

1. Provide a student-focused education
2. Integrate Christian faith in discipline
3. Pursue continuous program review and improvement
4. Continue partnership development with current and potential employers

Specialized Accreditation

The Computer Science program at Southwest Baptist University has been accredited by ABET.

The Accreditation Council for Business Schools and Programs (ACBSP) has accredited the following programs within the Robert W. Plaster College of Business and Computer Science (COBACS):

- Accounting, B.S.
- Accounting Information Systems, B.S.
- Business Administration (Traditional), B.S.
- Computer and Information Sciences, B.S.
- Master of Business Administration, M.B.A.

The traditional business administration programs that are accredited include Management, Marketing, Economics/Finance, Public Relations, and International Business. The programs offered by the Robert W. Plaster College of Business and Computer Science that are not accredited by ACBSP include the General Business (Non-Traditional), B.S. which is offered on the Mountain View and Salem campuses. Furthermore, the following majors have been recent additions to the College and as a result are not currently accredited: Accounting & Information Assurance, Computational Finance, Digital Marketing, Web Systems and Design, and Sport Business.

Faith Integration

Faculty in the College are committed to the University mission statement and to the College mission statement, which explicitly direct instruction of the College disciplines from the context of a Christian worldview. In addition to providing a strong and rigorous curriculum in each of our specialties, our duty as Christian scholars is to help frame both our discipline and the practice of that discipline within a biblical and more specifically, a Christian context. This commitment to integrate discipline with Christian faith and practice occurs throughout the courses taught within the College. Furthermore, the College has adopted Psalm 15 as a guiding principle for our students. The College is specifically dedicated to producing “Psalm 15 Professionals” for servant leadership roles in business and computer science. Using Psalm 15 as a basis, eight character traits that should be hallmarks of students and graduates of the College have been identified. These character traits are highlighted each semester and include: Integrity, Service, Respect, Charity, Faithfulness, Truthfulness, Humility, and Perseverance. Mandatory Psalm 15 Lectures are held each semester featuring guest lecturers who speak on the specific theme for that semester and relate personal experiences that highlight integrity and a Christian worldview for business leaders.

General Information

The College offers undergraduate degree programs with majors and minors within three departments. Students in other fields of study are encouraged to minor in accounting, business administration, computer science, computer information science, economics as a minor, or cybersecurity in order to enhance their careers. In recognition of the importance of business and computer and information science knowledge for all citizens, several departments outside of the College have developed programs that include College courses. All policies of the University apply to students who major or minor in College programs. Students must satisfactorily complete 128 hours of approved course credit in order to graduate with a baccalaureate degree. The standard semester course load required in order to earn the baccalaureate degree in eight semesters (4 years) is 16 hours. Students must maintain a minimum GPA of 2.25 and earn no more than two “D” letter grades within the COBACS core curriculum. Students must also maintain a minimum GPA of 2.25 and earn no more than one “D” letter grade within courses specific to the major (This does not apply to majors within the Accounting department. Refer to the Accounting Department for requirements related to their majors). All elective courses to be applied toward the major(s) and minor(s) must be approved by the student's advisor in the College. Students may complete two majors within one major in the Robert W. Plaster College of Business and Computer Science. The College faculty believes assessing educational outcomes in business is important. Outcomes assessment is a way to evaluate College programs and academic achievement of students in relation to similar colleges. Therefore, all graduating seniors are required to participate in an appropriate College exit exam.

Robert W. Plaster College of Business and Computer Science Core Curriculum (45 hours)

(Does not apply to Computer Science, Cybersecurity, or to Web Systems and Design Majors)

All students pursuing a major from the Robert W. Plaster College of Business and Computer Science (with the exception of Computer Science, Cybersecurity, or Web Systems and Design) are required to complete a common body of knowledge, referred to as the “College Core Curriculum,” in addition to the University's general education requirements, graduation requirements and the courses required and approved for students' majors within the College. (Students majoring in Computer Science, Cybersecurity, and Web Systems and Design do not take the “College Core Curriculum,” but are required to complete the Computer and Information Science Core, which has its own support curriculum with a greater math and science focus. Majors in Computer Information Science complete both the “College Core Curriculum” and the Computer and Information Science Core.) The 45-hour Robert W. Plaster College of Business and Computer Science Core Curriculum includes the following courses:

DEPARTMENT OF ACCOUNTING

Department Chair: Jenell Wagner
Office: Taylor 125 - (417) 328-1756
Faculty: Sharla Bailey, Kristin Edwards

The Department of Accounting provides programs of study to prepare Accounting graduates for diversified careers in the practice of public accounting, not-for-profit accounting, internal auditing, federal taxation, and general accounting management, all with a Christ-centered worldview in order to prepare the graduates to be servant leaders in a global society.

The Department of Accounting offers two Bachelor of Science degrees, one in Accounting with an academic program that covers the conceptual basis of accounting and the application of accounting concepts in current practice. The second degree in Accounting & Information Assurance includes the Accounting major and additional coursework principally in Computer Information Science. This expanded degree prepares the graduate with a fundamental understanding of accounting practices, information system design, data management and security, and data forensic principles. Accounting graduates are in high demand in business, government and non-profit organizations. A minor is also available in Accounting.

Students applying for the CPA exam must meet the Missouri State Board of Accountancy requirement of completing 150 hours of college credit. Accounting majors may consider additional undergraduate or graduate course work at SBU to satisfy the 150-hour requirement. The Accounting & Information Assurance major virtually assures 150 college credit hours will be earned.

In order to progress into the accounting major or minor and be eligible to enroll in ACC 3023 or ACC 3024, a student must have at least a 3.00 cumulative GPA in all previous accounting classes, a 2.75 cumulative GPA in all classes taken at SBU, and at least a “B” grade in BUS/MAT 1193, MAT 1195, or its equivalent. Remedial courses such as ENG 0103, MAT 0103, and MAT 0123 do not count toward the 2.75 overall GPA. Transfers to SBU must have at least a cumulative 2.75 GPA and must meet the above requirements concerning GPA on classes taken at SBU before becoming eligible for upper-level Accounting courses. Accounting majors or minors must make at least a “C” grade in all upper-level (3000 and above) accounting coursework.

DEPARTMENT OF COMPUTER AND INFORMATION SCIENCES

Department Chair: Tim DeClue
Office: Taylor 107 - (417) 328-1704
Faculty: James Cain, Meilani Conley,
Jeffrey Kimball, Baochuan Lu
Faculty Associate: Shelly Brown, Angela Carr

The mission of the Computer and Information Sciences Department is to provide a sound educational foundation to students in the disciplines of information and computer science from a Christian perspective.

The Program Educational Objectives of the Computer and Information Sciences Department enable graduates to:

1. Communicate effectively with their peers, clients, supervisors and other professional work constituents using both written and oral communication.
2. Understand how to make rational decisions when faced with social, ethical, and legal issues inherent to the computing field.
3. Apply the theoretical framework in the computer and information sciences to the analysis, design, and implementation of problem solutions and systems.
4. Employ the use of computing technology from a Christian perspective as technological servant leaders within their chosen career.
5. Pursue advanced degrees, continued professional development, and research.

The Department of Computer and Information Sciences provides students with a contemporary curriculum of study in computing to prepare them for careers in information processing, web software development or computer science and for graduate or professional study. The department offers a Bachelor of Science (B.S.) Degree with a majors in Computer Science, Computer Information Science, Cybersecurity, and Web Systems and Design. The department also offers programs of study leading to a minor in Computer Science, Computer Information Science, or Cybersecurity. Courses that provide general computational knowledge for students not seeking a degree offered by the Computer and Information Sciences Department are also offered.

The Bachelor of Science degree with a major in Computer Science (CS), Computer Information Science (CIS), Cybersecurity (CYBER), or Web Systems and Design (WS&D) requires a minimum of 128 semester hours of credit. The majors require 28 semester hours of credit from CIS Core Curriculum and additional semester hours of credit from specific CIS support courses or the "College Core Curriculum". Remaining semester credit hours are earned from general education courses, major support courses and free electives.

ROBERT W. PLASTER COLLEGE OF BUSINESS AND COMPUTER SCIENCE ASSOCIATE DEGREES AND MINOR PROGRAMS

Associate of Science in Business

Associate degree students in business are required to complete specified University general education requirements and graduation requirements in addition to the required business courses in their concentrations. Matriculation into a baccalaureate degree program is thereby enabled. **At least 64 credit hours must be earned for an Associate of Science degree.**

Associate of Science in Business - A.S. Degree (15 hours)

Designed for students seeking a two-year degree with general concentration in the area of business.

Business Courses (15 hours)

ACC 2013	Principles of Financial Accounting	3 hours
BUS 2013	Business Communications	3 hours
ECO 2033	Principles of Macroeconomics	3 hours
MGT 3013	Principles of Management	3 hours
MKT 3023	Principles of Marketing	3 hours

Associate of Applied Science in Business

Associate of Applied Science (A.A.S.) degree students in business are required to complete specified University general education requirements and graduation requirements in addition to the required business courses. See guidelines for the A.A.S. degree. **At least 64 credit hours must be earned for an Associate of Applied Science degree.**

Associate of Applied Science in Business - A.A.S. Degree (33 hours)

Designed primarily for non-traditional students with a general concentration in the area of business. General education requirements for the A.S. and A.A.S. degrees differ.

Business Courses (33 hours)

ACC 2013	Principles of Financial Accounting	3 hours
ACC 2043	Principles of Managerial Accounting	3 hours
BUS 2013	Business Communications.....	3 hours
