**Faith Integration**

Faculty in the College are committed to the University mission statement and to the College mission statement, which explicitly direct instruction of the College disciplines from the context of a Christian worldview. In addition to providing a strong and rigorous curriculum in each of our specialties, our duty as Christian scholars is to help frame both our discipline and the practice of that discipline within a biblical and more specifically, a Christian context. This commitment to integrate discipline with Christian faith and practice occurs throughout the courses taught within the College. Furthermore, the College has adopted Psalm 15 as a guiding principle for our students. The College is specifically dedicated to producing “Psalm 15 Professionals” for servant leadership roles in business and computer science. Using Psalm 15 as a basis, eight character traits that should be hallmarks of students and graduates of the College have been identified. These character traits are highlighted each semester and include: Integrity, Service, Respect, Charity, Faithfulness, Truthfulness, Humility, and Perseverance. Mandatory Psalm 15 Lectures are held each semester featuring guest lecturers who speak on the specific theme for that semester and relate personal experiences that highlight integrity and a Christian worldview for business leaders.

**General Information**

The College offers undergraduate degree programs with majors and minors within nine areas. Students in other fields of study are encouraged to consider one of the many minors in the various professional programs in order to enhance their careers. All policies of the University apply to students who major or minor in College programs. Students must satisfactorily complete 128 hours of approved course credit in order to graduate with a baccalaureate degree. The standard semester course load required in order to earn the baccalaureate degree in eight semesters (4 years) is 16 hours. All elective courses to be applied toward the major(s) and minor(s) must be approved by the student’s advisor in the College. Students may complete two majors within one area in the College of Professional Programs. The College faculty believes assessing educational outcomes is important. Outcomes assessment is a way to evaluate College programs and academic achievement of students in relation to similar colleges. Therefore, all graduating seniors are required to participate in an appropriate exit exam.

The Accounting area provides programs of study to prepare Accounting graduates for diversified careers in the practice of public accounting, not-for-profit accounting, internal auditing, federal taxation, and general accounting management, all with a Christ-centered worldview in order to prepare the graduates to be servant leaders in a global society.

The area of Accounting offers two Bachelor of Science degrees, one in Accounting with an academic program that covers the conceptual basis of accounting and the application of accounting concepts in current practice. The second degree in Accounting & Information Assurance includes the Accounting major and additional coursework principally in Computer Information Science. This expanded degree prepares the graduate with a fundamental understanding of accounting practices, information system design, data management and security, and data forensic principles. Accounting graduates are in high demand in business, government and non-profit organizations. A minor is also available in Accounting.

Students applying for the CPA exam must meet the Missouri State Board of Accountancy requirement of completing 150 hours of college credit. Accounting majors may consider additional undergraduate or graduate course work at SBU to satisfy the 150-hour requirement. The Accounting & Information Assurance major virtually assures 150 college credit hours will be earned.

In order to progress into the accounting major or minor and be eligible to enroll in ACC 3023 or ACC 3024, a student must have at least a 3.00 cumulative GPA in all previous accounting classes, a 2.75
cumulative GPA in all classes taken at SBU, and at least a “B” grade in BUS/MAT 1193, MAT 1195, or its equivalent. Remedial courses such as ENG 0103 and MAT 0243 do not count toward the 2.75 overall GPA. Transfers to SBU must have at least a cumulative 2.75 GPA and must meet the above requirements concerning GPA on classes taken at SBU before becoming eligible for upper-level Accounting courses. Area of Mathematics
The Area of Mathematics pursues excellence and offers quality instruction from a Christian perspective to non-majors to broaden their mathematical skills and awareness and to majors to prepare them for career success or further study in mathematics.

The SBU Area of Mathematics pursues excellence by:

• helping students familiarize themselves with mathematical skills and basic mathematical structures necessary for applications and interpretation of life experiences from a Christian perspective;
• seeking to enable students to appreciate graphical presentation of information, logical reasoning, and precision of statement and thought;
• preparing students for continued scholarship and positions of leadership from a Christian perspective in secondary mathematics teaching, graduate study in mathematically related fields, and employment in a global society with many problems that need solutions;
• promoting scholarship of the faculty by encouraging pursuit of advanced degrees, continuing professional development, research, and professional presentations and publications.

Mathematics Service Courses
Service courses are offered by the area, which do not count toward a mathematics major or minor. These either meet the mathematics general education requirement (see the general education section of the catalog for specific requirements) or help students develop the prerequisite skills for later courses in mathematics or other fields. Placement in a particular mathematics course is determined primarily by college entrance examination scores. These scores may necessitate placement in MAT 0243 Mathematical Literacy (which does not count toward the 128 hour graduation requirement) to enable the student to receive the necessary skills for success in later mathematics courses. Other factors that determine a starting mathematics course are high school background, vocational objectives, previous performance and student interest.

Mission Statement
The Division of Education is a learning community preparing teachers and administrators to be caring, effective practitioners in today’s schools.

The teacher education program is approved by the State Board of Education of the State of Missouri on an annual basis. The Missouri Department of Elementary and Secondary Education (DESE) grants this approval. When state department requirements change for teacher certification, the new requirements take precedence over this catalog. SBU reserves the right to amend the curriculum and require teaching certificate candidates to graduate under a program that reflects these changes. Southwest Baptist University is authorized to conduct a professional education program and recommend candidates for both initial certification and second areas of certification as listed in the table below. Total hours must meet SBU’s graduation requirements. The Teacher Education Program is also recognized by the Association of Christian Schools International (ACSI).

• Elementary 1-6
• Middle School 5-9
  o Language Arts 5-9
  o Mathematics 5-9
  o Science 5-9
  o Social Science 5-9

Before being admitted into the teacher education program, candidates must pass all sections of the Missouri General Education Assessment (MoGEA) or have an ACT composite score of 20 or greater, achieve a cumulative grade point average of 2.75 on a 4.0 scale, a grade point average of 3.0 in professional education coursework, a grade point average of 3.0 in the candidates’ chosen area, and the approval of the Division of Education faculty and faculty in the candidate's chosen area. Additional requirements and procedures are found in the Teacher Education Handbook.

Under Title II reporting during the 2017-2018 academic year, 131 undergraduate students had been accepted into the teacher education program and were pursuing elementary, middle, or secondary certification. A total of 57 students completed supervised student teaching in either the fall or spring semester. At Southwest Baptist University, student teaching consists of a minimum of 35 hours per week for a full semester. Placement for student teaching is made in schools that are within a 50 mile radius of Bolivar. The teacher candidate-faculty ratio in supervised student teaching during the 2017-2018 report year was 2.4 in the fall and 3.1 in the spring.

Physical Education
Recognizing that mental cognition and efficiency is dependent upon organic health and vigor, and with the philosophy that training and development of the body should be as systematic and thorough as training of the mind, programs for individual and team physical enhancement are offered in health and physical education. Fundamentals of sports and athletic skills are taught and opportunities for participation are provided through various physical education programs. This program leads to Missouri teacher certification in grades K-12. Students desiring to pursue a career in a sports related area other than teaching may pursue a major in Sport Management. A physical education major must pursue a course of study that leads to either the bachelor of arts degree or the bachelor of science degree.
Enrollment in upper level education courses by all students seeking State Teacher Certification is limited to those students who have a cumulative GPA of 2.75, a GPA of 3.0 in physical education coursework, a GPA of 3.0 in professional education coursework, passed all state required assessments, completed their file in the Office of Teacher Education, and been approved by faculty in the Division of Kinesiology and the Division of Education. Description of Program
The baccalaureate degree in Sports Medicine requires a minimum of 128 semester hours of credit earned by completion of the University general education and graduation requirements, the Sports Medicine major requirements and required support courses.

The athletic training and sports medicine program at Southwest Baptist University is a professional allied health program. It is expected that students will achieve and adhere to appropriate standards for successful matriculation, policies and procedures and maintain requirements for the clinical education of the student.

Clinical Courses: As part of the baccalaureate degrees in Athletic Training and Sports Medicine, students are required to actively participate and successfully complete clinical courses in an allied health care setting. These clinical courses are completed during the normal academic semesters. The student will be given an individual education plan based on post-professional interest.

Area of Athletic Training and Sports Medicine Assessment
Periodic measurements of the student’s perceptions, intellectual growth, clinical performance, and professional behaviors are obtained as one means for the University to assess and improve its academic programs and student learning. The information obtained is used to measure the competencies and proficiencies and to determine and improve the quality of the educational experience for students. An overall grade point average of 2.5 is required in all Sports Medicine courses and support courses towards the Bachelor of Science in Sports Medicine.

Disclaimer Statement: Southwest Baptist University is currently accredited by the Commission on Accreditation of Athletic Training Education (CAATE), 6850 Austin Center Blvd., Suite 100, Austin, TX 78731-3101. The program has chosen to Voluntarily Withdraw its CAATE Accreditation effective May 31, 2021.

Students accepted into the 2017 cohort are eligible to sit for the BOC exam. Students after the 2017 cohort may only declare the Sports Medicine major. The program will no longer admit AT Majors after the 2017 cohort.
